Complete thoracic drainage system for suction, air leakage monitoring and intrapleural data

**SUCTION MODE**
- Totally independent from any hospital vacuum sources
- Suction regulation
  - -10 up to -60cmH₂O (-1 to -6 kPa)
- Portable vacuum unit with rechargeable battery up to 36 hours of use

**MONITORING MODE**
- Real-time and historical monitoring for air-leak and intra-pleural pressure
- Patient data always visible in numeric and graphic mode
- Mini USB-key port for data downloading

**Drentech Palm Evo**
- Kit portable chest drainage vacuum unit w/display code 10192
  - Packaging: 1 unit for box
- Chest unit protection filter code 10538
  - Packaging: 36 units for box

**Drentech Simple3 Evo**
- One patient tube code 10125
- Double patient tube code 10129
  - Single use, sterile - Packaging: 4 units for box

Improving drainage management provides the elements for a complete assessment of patient’s status
- Total patient awareness: real time air leak data recording 99 hrs
- Real-time and graphic intrathoracic monitoring
- Immediately available in digital or graphic mode via touch screen mode
- Recording air leakage also in total gravity mode
- Equipped with video and audio alarms

DRENTECH MOBILE
Portable vacuum unit fully independent of any suction sources

DISPOSABLE CHEST DRAIN
• Large capacity drainage unit
  • Underwater seal valve separated from collection chamber
  • All time clear visibility for air-leak directly on frontal
  • Suitable for adult and paediatric use

MOBILE VACUUM UNIT
• Negative pressure regulated through key-board from -10 up to -60 cmH₂O (-1 to -6KPa)
  • Current suction level always visible through display
  • Autonomy of 48h.

DRENTECH MOBILE features and benefits
• A complete freedom for the patient and an easy transport in hospital facilities
• Early patient mobilization and less work-load for the hospital staff

Drentech Mobile
Kit portable chest drainage vacuum unit  code 10174
Packaging: 1 unit for box
Chest unit protection filter  code 10538
Packaging: 36 units for box
Drentech Simple3
One patient tube  code 10128
Single use sterile - Packaging: 4 units for box
